

2009 Nissan Altima

Easy to love, impossible to forget. Sedan, Coupe, or Hybrid.

Stylish, powerful, popular. The just->so-smart combination of Nissan innovation with looks that thrill. In two doors or four, discover one exceptional Altima for yourself.

¹The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. ²Actual mileage may vary with driving conditions – use for comparison only. ³Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ⁴The optional RearView Monitor is a convenience, but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The RearView Monitor may not detect every object behind you.

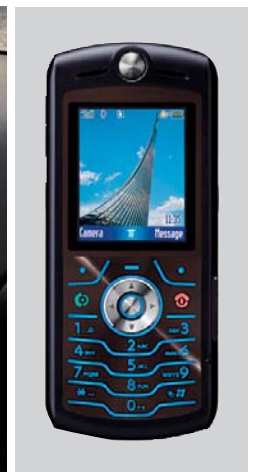

< It only looks expensive. Available extras like heated front seats and Dual Zone Automatic Climate Control (ACC) keep you comfy, while thoughtful storage makes sure it's practical.

It all starts here, with just the push->of a button. Altima's standard Intelligent Key with Push Button Ignition. Push, power, smile. Then talk freely with Bluetooth® Hands-Free Phone System!

< As responsive as it is responsible, it's our first hybrid that drives like a Nissan. This Altima boasts an impressive 5.6 L/100 km (50 mpg) in the city. Imagine going over 1300 km (808 miles) on only one tank. That's hybrid?

Now that's brilliant. Nissan's->available DVD Navigation System is touch-screen or hands-free voice-activated? And parking's a breeze with an available RearView Monitor to help while backing up!
